ABOUT

BADLANDS MEDIA

Badlands Media was launched by Jon Herold and Kate Buckley in October 2022, uniting a collection of independent researchers, citizen journalists, Anons, and free thinkers as varied in their approaches and perspectives as they are unified in common purpose—that being the hunt for Truth in all aspects of the shifting sands in the ongoing information war between the forces of Sovereignty and Globalism the world over.

We provide our collective a platform that allows them to present the Truth and facts to help break the control of the narrative away from the mainstream media.

Our only agenda is the Truth.

WE ARE THE NEWS NOW.
